

New Range Rules

Anyone attending a match at the West Hampton Shooting Range must follow these rules.

All guns must be in gun cases in the parking lot. **There is absolutely no uncased gun handling in the parking lot.** Either by carrying or placing guns while cased into the gun cart, bring guns to a safe area to be uncased and put into your gun cart open and empty. Safe areas that are available are the 100 yd range, an empty pit, or the red safety zone in any pit. Gun cases can be hard or soft, the gun socks are also acceptable.

Any guns that are being sold, may only be laid out on the table in the 25 yd pit (up front, across from trailer).

This is a **cold range**: loaded guns are only allowed at the designated loading table and the firing line.

Additional range rules will be displayed on our website
www.eastendregulators.com

Everyone coming to the match must review and oblige these rules.
